Subject: Declaration of Ownership of TSMX™ Invention

I, Terrell Robert Annunziata, as the Founder and CEO of VLEYR Technologies Inc., hereby declare the following:

1. **Ownership Assertion:** I am the original inventor and owner of the system known as TSMX™ (Trust Signal Matrix™), developed under VLEYR Technologies Inc. This system represents a novel approach to verifying real-world actions through a combination of advanced technologies, with initial conceptualization and development commencing prior to July 18, 2025, as evidenced by related provisional patent filings with the United States Patent and Trademark Office (USPTO).
2. **Nature of the Invention:** TSMX™ is a decentralized framework designed to generate cryptographically verifiable records of physical actions. It employs a layered approach to action verification using diverse input streams, real-time decision-making powered by embedded logic, secure privacy-first proof anchoring on a distributed ledger, adaptable across trust-critical sectors with a unified protocol, and capable of operating beyond connectivity constraints. Specific technical details, including algorithms, protocols, and processing methods, are withheld as trade secrets and are protected under ongoing patent applications.
3. **Intent and Rights:** I assert my exclusive rights to the invention, its applications, and any derivatives thereof. This declaration serves as notice to the public that any unauthorized use, reproduction, or development of a system substantially similar to TSMX™, as described herein, may infringe upon my intellectual property rights. VLEYR Technologies Inc. reserves the right to pursue legal action against any party attempting to exploit or replicate this invention without permission.
4. **Public Record:** This document is uploaded to the Wayback Machine (web.archive.org) on July 31, 2025, to establish a timestamped public record of my ownership and intent, further supporting the priority of my invention as of this date.

Signature:

Terrell Robert Annunziata

Founder and CEO, VLEYR Technologies Inc.
